Official Rules

Important Note:

The information in this packet is tentative with regard to the preliminary round format. If numbers drop significantly between the release of this packet and the beginning of the competition, the tournament reserves the right to adjust the numbers and procedures accordingly.

The rules contained herein are designed to promote procedural unity among the chambers. They are subject to change by the staff at any time, but they may NOT be altered or ignored through a suspension of the rules by the chamber.

CHAMBER DECORUM:

- Each preliminary chamber is designated a HOUSE.
- A member of the House of Representatives is always referred to as "Representative."
- The Presiding Officer is addressed as "Mister/Madam Speaker."

LEGISLATIVE DAY: A legislative day is one session. Speaker order (recency) resets after each session.

AGENDA ORDER: Each chamber may determine its own agenda based on the order of the legislation assigned compiled in the tournament docket.

PRESIDING OFFICER NOMINATIONS AND ELECTIONS:

- There is one (1) elected Presiding Officer in each session.
- No legislator may serve in that office for more than one session if there are other willing candidates within the chamber.
- The *Parliamentarian* using a secret ballot conducts elections. A majority vote is required to elect a candidate.

RECOGNITION OF SPEAKERS:

- Presiding officers must use precedence when recognizing speakers. This means that presiding officers must choose speakers who have spoken least (or not at all). The only exception to precedence is when the speaker has *authorship* privileges. In this case, precedence must be broken in order to recognize the author as the initial speaker of the newly introduced legislation.
- Presiding officers should employ recency once precedence has been set. This means that the presiding officers should select the speaker who has spoken *least recently* (or earliest).
- Before precedence is set, the presiding officer must choose and explain to the chamber the manner in which speakers will be recognized. Only two methods are strictly prohibited: activity and longest standing.
 - Activity The presiding officer may not select speakers based on who has already been recognized for questions and/or motions.
 - Longest Standing (Standing Time) The presiding officer may not track how many times speakers stand to be recognized.

LEGISLATION WITHOUT AN AUTHOR:

- For the purposes of debate, the author shall be the student who drafted the legislation.
- If the author of a bill or resolution is not present in the chamber, withdraws from the tournament, or waives service as the author, a sponsorship speech is in order.
- Sponsorship is determined by recency.
- The sponsorship becomes accountable for the mechanics of the legislation and must yield to two minutes of questioning by the chamber.
- The Presiding Officer may not step down in order to take the floor as an author and/or sponsor.

QUESTIONING DURING PRELIMINARY COMPETITION:

- A mandatory two-minute questioning period follows all authorship, and sponsorship on amendment speeches.
- A two-minute questioning period also follows the first negative speech on any item of legislation.
- The Presiding Officer shall recognize legislators who wish to ask a question of the speaker; the speaker MAY NOT perform this function him/herself.
- All other speeches will have a mandatory one-minute questioning period that may not be suspended.
- Questioners may only ask one question at a time. Thus, the Presiding Officer has an obligation to rule "two-part," misleading, or irrelevant questions out of order.

AMENDMENTS:

- Legislators must submit amendments in writing.
- A motion to amend is necessary to consider the written amendment.
- Once the motion is made, the Presiding Officer decides if the amendment is germane.
- The Presiding Officer may consult with the Parliamentarian to make this decision.
- If the amendment is found not germane, the chair rules it out of order and the amendment process stops.
- If the chair rules the amendment germane, the chamber considers the amendment. In this case, the presiding officer reads the amendment to the chamber.
- A 1/3rd second of the members present in the chamber is required to debate the amendment.
- If the chamber votes a second, debate on the amendment commences immediately.
- There is no minimum cycle requirement for amendments, so legislators may make a motion to table or call the previous question on the amendment at any time.
- The first speech on the amendment is a sponsorship speech. The chair determines speaker recognition for the sponsorship speech on the basis of recency; the author of the amendment is not guaranteed the sponsorship speech. The sponsor accepts responsibility for the mechanics of the amendment and yields to two minutes of questioning.
- All amendment speeches receive a score and count towards recency. A majority vote is necessary for the chamber to adopt the amendment.

VOTING:

- The Presiding Officer determines the method of voting on each question that comes before the chamber, except for final votes on legislation, amendments, and motions to appeal to the chair, a recorded vote must be taken. On all other votes, "voice voting" is acceptable.
- A recorded vote must follow if:
 - o any member asks for a division; or
 - a member of the chamber moves for a roll call vote and the motion is agreed to by $1/5^{\text{th}}$ of the chamber.
- All simple majority votes are based on the number of legislators present and voting in the chamber. Therefore, the Presiding Office may not call for or count abstentions.
- For all votes requiring a fraction of the chamber to agree to a motion or question (2/3, 1/3, 1/5, etc.), the chair determines whether the chamber agrees with the motion/question using the number of legislators present in the chamber.
- Thus, the Presiding Officer must track the number of legislators in the chamber at all times.

INTERNET CONNECTIVITY:

- During the course of debate on a piece of legislation under consideration, use of the Internet shall be strictly prohibited.
- Internet may be used during recesses called by the chamber or during the time period between sessions, but may not be accessed during motions of personal privilege.
- Both judges and peers present in the chamber shall monitor inappropriate use of the Internet.
- Concerns should be brought to the Parliamentarian in a discreet manner that has limited impact on the flow of the chamber.
- The Parliamentarian will then bring these concerns to the attention of the tabulation staff.

EVIDENCE RULES:

- Students shall be responsible for the validity of all evidence they introduce to the floor. This includes, but is not limited to: facts, statistics, or examples attributed to a specific, identifiable, authoritative source used to support a claim. Unattributed ideas are the opinion of the student competitor and are not considered evidence.
- At minimum, students are expected to orally deliver the following when introducing evidence: primary author(s)' name (last) and year of publication. In the event that the source is a periodical or government publication, the title of the publication may be substituted for the author.

• Evidence violations shall include:

- "Distortion" the textual evidence itself contains added and/or deleted word(s), which significantly alters the conclusion of the author (e.g. deleting "not"; adding the word "not".)
- "Non-existence"
 - Student citing evidence is unable to provide the original source or copy of the relevant pages when requested by a tournament official.
 - Original source provided does not contain the evidence cited.
- "Clipping" when the student claims to have read aloud the complete text of highlighted and/or underlined evidence when, in fact, the contestant skips or omits portions of the evidence.
- "Straw argument" claim introduced by an author for the purpose of refuting, discrediting or characterizing it. Reliance on a straw argument occurs when a student asserts incorrectly that the author supports or endorses the straw argument as his or her own position.
- In order to protest a piece of evidence, a student must secure from the Parliamentarian a formal protest form only during the recess immediately following the legislative debate during which the accused violation has occurred. In the event that Orders of the Day have been called, the same rules apply, but the student filing the complaint will have five minutes to complete this form and turn it into the Parliamentarian.
- This form shall require the student filing the protest to provide:
 - Full citation of the evidence in question
 - Identification of which evidence violation has been committed
 - A detailed explanation of what exactly was said by the competitor being questioned (verbatim if possible)
 - Provision of the piece of evidence demonstrating that student filing the protest had prior knowledge of evidence in question and that it was not accessed via Internet during the course of the debate
 - Student must sign form and acknowledge that a false accusation could result in the loss of ranks earned for that session. Student must file the complaint with the Parliamentarian prior to the end of the chamber's recess or within five minutes of Orders of the Day being called. The Parliamentarian will contact the tabulation staff immediately and an appointed protest committee will make a determination as to how to proceed.
- If requested by a tabulation staff member, students must be able to provide a printed or electronic .pdf copy of the evidence with the referenced materials(s) highlighted.

Preliminary Competition Format

This year's Congressional Debate division features twelve (12) chambers.

There are **three (3) sessions** of debate in the Preliminary Competition. Each session consists of **three (3) hours** of floor debate. There is **one (1) elected Presiding Officer** in each session. For purposes of this competition, one complete session is a legislative day. Priority for speaking resets at the end of each legislative day. *Thus, all legislators will have zero speeches at the start of each session*.

A Parliamentarian and a Scorer will evaluate each chamber. The *Parliamentarian* remains in the chamber throughout the preliminary competition, while the *Scorers* rotate to different chambers throughout the tournament. The *Scorers* evaluate every speech that is given in a session, rating them on a scale of 1 to 6 (1 is low; 6 is high). The points awarded by a *Scorer* for a given speech can thus be used to determine NFL points for that speech. The *Parliamentarian* keeps notes on the overall performance of each legislator and will write formal ballots, including an evaluation for each Presiding Officer, awarding him/her up to 18 NFL points on the basis of his/her performance during a given session.

At the end of each session, the *Scorer* and the *Parliamentarian* will each independently nominate **eight (8)** students for Best Legislator during the session. Each *Scorer* and *Parliamentarian*'s nomination form is converted into credits by the Tabulation Staff with the 1st place legislator receiving 8 credits, the 2nd place legislator receiving 7, and so on. Those students who were not ranked will receive zero (0) credits. The **three (3)** students from each chamber who have earned the highest number of judge credits during the Preliminary Sessions will advance to the Semifinal Round.

At the conclusion of the third session, the students who ranked **fourth through ninth** on the basis of judge credits will be placed into nomination for advancement by peer preference. If there is a tie in determining nominees for the election, the tie will be broken using inverse reciprocal ranks, followed by head-to-head competition, followed by *Parliamentarian*'s preference. During the conduction of the peer preferential advancement, the *Parliamentarian*'s ballot will break any ties.

Finally, each *Parliamentarian* ranks the top 10 students in the chamber at the end of the third session on the basis of their overall legislative performance during the course of preliminary competition. The highest-ranking student on this record (Parliamentarian's Preferential Rating) who has not advanced from preferential balloting or judge credits will then advance to the Semifinal Round.

Thus, seven (7) legislators qualify for the Semifinal Round from each chamber as follows

- 1. 3 students on the basis of total judge credits
- 2. 3 students on the basis of peer preference
- 3. 1 student on the basis of Parliamentarian's Preference

Judge Instructions for Opening Congress Meeting

JOB OF A STUDENT CONGRESS SCORER

- Evaluate the "Best Legislator"
- Students should be evaluated based on the demonstration of various skills not just speaking. This means students should be recognized for participating in setting the **agenda**, **making motions**, **asking questions**, etc.

Role of the Presiding Officer

- In order to ensure that students are able to do this in a fast, fair, and efficient manner, a **presiding officer is absolutely necessary**.
- Rounds cannot happen without presiding officers. Students are sacrificing their opportunity to speak to serve the community. This is a leadership position.
- Good presiding officers are hard to find and amazing presiding officers are a rarity. This is because students feel disadvantaged when they preside as judges often forget that we are looking for the Best Legislator and not the Best Speaker.
- Bad presiding officers will result in chaos in the chamber and thus, the lack of opportunity for students to participate in debate. Thus, in order to encourage individuals to preside, not only do we offer a gavel to the best presiding officer, but also we highly encourage you to place the presiding officer in your final ranks.
- Failure to rank the presiding officer must be accompanied with a detailed explanation as to why the presiding officer failed to keep order in the chamber or demonstrated a lack of leadership.

SPEECH SCORES

- 6 You should be in Congress now!
- 5 You are amazing and will be in Congress some day!
- 4 You are a good competitor, keep working.
- 3 You had a lot of problems today. Requires a very detailed explanation.
- 2 You spoke for a very short time, like a minute and half. Requires a very detailed explanation.
- 1 You were offensive. Requires a very detailed explanation.

TYPES OF CONGRESS SPEECHES

All of Equal Value in the Round Students Demonstrate Skill by Performing Different Types of Speeches

• Constructive:

- There is **no such thing as a first affirmative**. The first affirmative speech is a constructive speech introducing the legislation to the floor for debate.
- It can be either an authorship or a sponsorship speech.
- They should establish for the judge the purpose of introducing the bill to the floor for debate. You should be able to listen to the constructive and understand what the proposed piece of legislation advocates without reading it.
- In prelims, legislation is tied to the diocese. Only a student who has authored a bill is guaranteed a constructive speech. Any other student may give a sponsorship if a member of the diocese is present.
- Rebuttal Speeches:
 - Rebuttal speeches directly refute an opponent's argumentation.
 - Rebuttals do not simply list the names of opposing legislators.

• Extension Speeches:

- Extension speeches take a previous argument and extend the line of argumentation.
- Extension speeches are not rehash, if and only if, some new nuance of the debate is brought forth.
- Speeches may be a combination of rebuttal and extension.

• Crystallization Speeches:

- Happen at the end of the debate.
- Weigh both sides and try to convince you why one side is better than the other.

ONE-SIDED DEBATE

- The purpose of debate is advance arguments.
- Students should be prepared on both sides of the legislation. Thus, one-sided debate is highly frowned upon. If everyone is in agreement, then there is no debate.
- Students, in this event, are not required to advocate on every bill.

CALLING THE QUESTION

- Students should feel comfortable calling the previous question when debate has become one-sided or debate has become stale.
- It is not rude to call the previous question if these conditions exist and people still want to speak.
- One of the skills of a limited prep event like Student Congress is being able to flip one's points if one really wants to give a speech on a particular piece of legislation.
- No minimum cycle, no maximum cycle

Chamber Assignments

General Information for Contestants

- Find your name on the next page.
- Remember to NOT panic if you do not have your code. Simply use only your last name when speaking from the floor.
- Do not use your school name to identify yourself during the course of any session of the Congress.
- Bolded names indicate that a representative has submitted legislation for the chamber's consideration.

Legislative Calendar

- Legislation has been assigned to the same chamber as its author.
- All legislation assigned to a chamber must be debated before the chamber may debate legislation assigned to a different chamber.
- Legislation assigned to a chamber may not be tabled for the purposes of moving forward to another chamber's legislation.
- In the event that a chamber completes its entire agenda:
 - Chamber 1 will debate items from the docket of Chamber 2
 - Chamber 2 will debate items from the docket of Chamber 3
 - Chamber 3 will debate items from the docket of Chamber 4
 - Chamber 4 will debate items from the docket of Chamber 5
 - Chamber 5 will debate items from the docket of Chamber 6
 - Chamber 6 will debate items from the docket of Chamber 7
 - o Chamber 7 will debate items from the docket of Chamber 8
 - o Chamber 8 will debate items from the docket of Chamber 9
 - Chamber 9 will debate items from the docket of Chamber 10
 - Chamber 10 will debate items from the docket of Chamber 11
 - Chamber 11 will debate items from the docket of Chamber 12
 - Chamber 12 will debate items from the docket of Chamber 1

"You must be the change you wish to see in the world." – Mahatma Gandhi

NOTE ABOUT AGENDAS:

We don't have to tell you that the *first rule of speech and debate is be a good person*. In fact, we firmly believe that your generation understands the concepts of equity and equality better than *any* previous generation.

We provide the legislation two weeks in advance so that you can prepare great speeches on a limited number of bills rather than prepping 20 or more bills that you may never speak on. However, there are number of coaches who criticize this practice because they believe it *shuts out new voices* and *unfairly benefits larger programs* and *students who can afford to attend summer enrichment programs*.

We believe it gives you a unique experience to learn how to *effectively network* and *collaborate with your peers*. Here is your opportunity to help ensure that our community of Congressional Debaters embraces the norms of equity and equality. We cannot stop you from creating agendas in advance, nor is that our desire. Our desire is that you demonstrate leadership by actively seeking inclusiveness. When creating agenda setting groups:

- Make sure you have included everyone in the chamber.
- Prioritize your wants. Know where you are willing to compromise.
- Listen to everyone's desires by asking for input.
- Experienced competitors should mentor younger debaters.
- Established teams should reach out to new programs.
- If you are new to the activity, don't be afraid to reach out first!

Most importantly, don't set anything in stone.

Recognize that there may be individuals that you were unable to reach. At the start of the in-house caucusing period, ask those who were unable to participate for their thoughts.

Be willing to give a little in order for everyone to feel included.

A BILL TO REDUCE INCOME INEQUALITY IN PUBLIC SCHOOLS TO ENSURE STUDENT SUCCESS

1 BE IT ENACTED BY THE CONGRESS HERE ASSEMBLED THAT:

2	SECTION 1.	The federal government will provide funding to school districts to ensure that each
3		district in any state can spend per capita on elementary and secondary students 75% of
4		the highest per capita spending in the state. Eligibility for this funding will be contingent
5		on districts meeting a national per-student spending minimum of \$7,600 prior to
6		accounting for student with special needs within four years of the enactment of this
7		legislation. The program will be funded by revenue generated by placing a cap on the
8		deductibility of state and local property taxes in determining federal income tax liability.
9		The cap will be \$10,000 or 100% of one's property taxes, whichever is less. States with
10		any districts below the minimum per-student spending will provide an improvement plan
11		for all schools in the state to meet the threshold within 4 years. If a state does not
12		demonstrate that all districts in the state meet the minimum per student spending
13		threshold within 4 years, the Department of Education will eliminate this funding for all
14		districts in the state.
15	SECTION 2.	A. A national per student spending minimum shall be defined as a policy that sets a
16		threshold for the amount of money districts spend per student.
17		B. An improvement plan will be defined as a way for states to demonstrate that all
18		districts regardless of demographics will be able to meet the minimum student spending
19		threshold.
20	SECTION 3.	The federal Department of Education, as well as the state departments of Education will
21		be in charge of the implementation of this bill.
22		A. The state departments will be responsible for providing an improvement plan in the
23		event a district in the state does not meet the minimum per student threshold.
24		B. The federal Department of Education will distribute funds, and eliminate funding
25		upon the misallocation of funds or failure to meet the eligibility requirements.
26	SECTION 4.	This Bill will go into effect the academic year of 2019-2020
27	SECTION 5.	All laws in conflict with this legislation are hereby declared null and void.

B/R #905 A Resolution to Reform Congressional Elections to Ensure Representative Representation

1	RESOLVED, By two-thirds of the Congress here assembled, that the following article is
2	proposed as an amendment to the Constitution of the United States, which
3	shall be valid to all intents and purposes as part of the Constitution when
4	ratified by the legislatures of three-fourths of the several states within
5	seven years from the date of its submission by the Congress:
6	ARTICLE
7	SECTION 1: Representatives will no longer be elected by
8	Congressional district. In each state, a statewide list-based election
9	will determine representatives. Political parties shall submit a list
10	of candidates to the ballot in order of preference. The list will be
11	as long as the number of representatives elected in that state.
12	Unaffiliated candidates may run so long as they form a preference
13	list of appropriate length. States may continue to have laws
14	regarding ballot eligibility. Voters will vote for a party list or
15	unaffiliated list. States shall allocate representation to lists based
16	on the results of the election. The representatives assuming office
17	shall be determined by taking the number required from the
18	preference ranked list. The formula for converting share of votes to
19	representation will be determined by the Congress, and must be
20	uniform for all States. A list must garner 10% of the popular vote
21	to be eligible to gain seats. Candidates may not appear on multiple
22	lists. States may determine their own special election procedures.
23	SECTION 2: The Congress shall have power to enforce this
24	article by appropriate legislation.

Respectfully submitted, Rep. Michael Ryter Newton South High School

B/R #906 JUSTICE REFORM ACT OF 2017
